WELCOME FROM THE DIRECTOR

For quite a few years now I have been lucky enough to be involved with the organising team of the Australian Hay Mini Nationals. I've seen it grow, develop and evolve into one of the standout events on the annual CAMS calendar, and certainly the jewel in the crown of just about every Mini Club calendar. To say I am proud of this association is certainly an understatement! The crew that have put this event together and are about to run it, are amongst the best ever. But not only am I proud of this team, and the previous teams, but I am also incredibly proud of you, the members of the Mini Clubs of Australia who each year build and prepare some of the finest Minis in Australia and bring them many hundreds and sometimes thousands of kilometres to this magical place. It's because you come to Hay, that everyone else wants to come to Hay!

Following on from last year's shake up in event order and success of Junior Hay Heroes, we are continuing with the Saturday night Hay Heroes extravaganza under stadium lighting with dinner, music, and fire works!

We'll also have the ever growing parade and show and shine on with some of the most beautiful Minis and Mokes in the country vying for their class awards, and even the outright Best in Show award.

Sunday will have most of the absolute top motorkhana drivers in the country battling for hundredths of seconds. After last year's Australian record of 151 entries there is a huge amount of pride on the line!

There are a few changes to times and formalities so make sure to check out the event itinerary to stay on top of it all.

Finally I'd like to extend a huge thanks to the Hay Shire Council, the Bidgee Motor Inn, Graham Russell Engineering, Meguiars Liqui Moly and extend a huge welcome to Minisport, MinisPlus and Mini Kingdom Online and all of our other sponsors. This is what makes the event possible, and I strongly urge you to keep these names in mind when out shopping!!

21. RESULTS will become final 30 minutes after the conclusion of the presentation of awards, unless written notification of a protest is received by the Stewards of the meeting, or in their absence the Clerk of Course (see protests point 28).

22. CAMS PERMIT: The CAMS permit will be displayed at the start of the event.

23. ENTRY: The organisers may refuse any entry in accordance with NCR 83.

24. STARTING/RUNNING ORDER

Motorkhana:

The starting order for the Hay Motorkhana will be determined by receipt of entry (and be subject to discretionary movement by the Secretary / Results Manager). Numbers will be supplied upon entry to the pits, immediately prior to the event as explained in "scrutiny" above.

There will be 6 tests, with 2 runs at each test.

The event will be divided into 2 sections (section 1 before lunch, and section 2 after lunch). Section 1 will be the entire fields first attempt at all 6 tests and section 2 will be the entire fields second attempt at all 6 tests. Competitors will be divided into 6 groups and allocated a start lane ('shotgun' start).

All competitors **MUST** compete in their **CORRECT RUNNING ORDER**, or as directed by officials. Correct running order means that vehicles must remain in their allocated group and drivers are to run in ascending numeric order within that group at all times. Failure to run in correct running order without Director's or Lane Commander's permission will incur a "W.D." penalty for that run.

Hay Heroes:

The starting order for round one run-off heats for Hay Heroes will be determined by a simple seeding system, then by random draw. In the event of an uneven number of entries for round one run-off heats, a "bye win/s" will be added, and the first Competitors drawn will run off against the bye, and be seeded to the top of heat 2. E.g. even numbers are 2, 4, 8, 16, and 32. If 10 entries are received 6 byes will be added to take the total number to 16. The first 6 competitors drawn will receive the bye win, and go straight to heat 2.

A run off draw will be conducted for the order in which each class will compete (i.e. classes A, B, C, and D will draw from a hat to determine which order they shall be run).

Hay Heroes will be a series of class run-off heats and rounds using two lanes with two identical slalom tests. Drivers will be allotted starting lanes and after completing that lane the two drivers will change lanes and complete another run. When there are only two competitors remaining in a round, that round shall be deemed to be the final round with the result determining the winner for that class.

The four class winners will then go into the semi-finals. The first semi-final shall consist of the third and fourth fastest class winners competing in a sudden death elimination. The winner of that semi-final shall then move into the second semi-final against the 2nd fastest heat winner. The winner of that semi-final shall go into the grand finale against the fastest of the heat winners to compete for the Hay Hero Award.

A substitute vehicle will not be permitted in the Hay Heroes, when that vehicle has completed or attempted a run-off heat.

Junior Hay Heroes:

There is only 1 class for Junior Hay Heroes. All competitors will be rolled into one class regardless of vehicle and will start as per a random draw shortly before the commencement of the event. All other rules for Junior Hay Heroes are the same as Hay Heroes.

25. Entries from competitors under 18 years of age must be counter signed / consented to by a parent/guardian.
